Tutoring Experience

I have been tutoring for over five years, specialising in IB and IGCSE Physics and Maths. My journey began as a peer tutor during my university years, where I discovered my love for teaching. Since then, I've helped countless students, especially those aiming for top grades in their IB and IGCSE exams. My tutoring sessions are highly interactive and focused on problem-solving, helping students not just learn but also enjoy the process. I also have experience preparing students for Oxbridge admissions, guiding them through complex mathematical and physics problems that challenge their critical thinking. Seeing my students grow in confidence and achieve their desired outcomes is the most rewarding part of what I do.
