Tutoring Experience

Over the past three years, I've had the opportunity to work with a diverse range of students, helping them navigate the intricacies of Chemistry, Physics, and Maths at IB, AP, and IGCSE levels. My approach is tailored to each student's unique learning style, whether it's breaking down challenging concepts in Physics or guiding them through complex problem-solving in Maths. Having recently completed my degree at Oxbridge, I bring fresh, cutting-edge knowledge to my tutoring sessions, ensuring students are well-prepared for exams and future academic pursuits. I've successfully helped students improve their grades and develop a genuine interest in the sciences. My sessions are interactive, focusing not just on exam preparation but also on fostering critical thinking and analytical skills, which are essential for long-term success.
